Capability Statement

Summary

Adams Environmental Engineering Group, LLC (AEEG, LLC) provides high quality environmental and engineering services including consulting, design, remediation/recovery, and contracting. We specialize in being able to provide consulting, engineering and contractor services with one stop. AEEG is a locally owned and operated minority business with numerous years of experience. The principal element of AEEG provides a hands-on, practical approach to meeting an array of needs in the environmental consulting and engineering field, working for both the large and small, in the private and public sectors.

Business Summary

AEEG was formed in 2018 with an emphasis on providing quality services for all aspects of environmental work including planning, permitting, property transactions, remediation/recovery, tank removal/abandonment oversight, tank inspections and overall site support. Associated disciplines included site preparation and remediation, regulatory compliance and expert witness testimony. AEEG is certified as a small business enterprise and is also a woman-owned business and disadvantaged business. The AEEG principal engineer has been involved with full-service environmental consulting, contracting and engineering for more than 32 years.

Capabilities

As stated above, AEEG's services include consulting, engineering and contracting with an emphasis on the following:

Remediation Services - Environmental clean-up, soil and groundwater contamination, groundwater pump and treatment systems, soil and groundwater remediation systems, vapor extraction system for soil and soil vapor, toxic material abatement and removal, underground tank testing and removal, hazardous/non-hazardous petroleum and chemical spill cleanup services, oil spill clean-up, environmental remediation services

Environmental Consulting Services - Phase I and Phase II Environmental Site Assessments, Remedial/Response Action Plans, MDE Work Plans, Certified MDE Underground Storage Tank Removal, Environmental Audits, Spill Control and Countermeasures (SCC) Plans, Voluntary Clean-up Programs (VCP)

Engineering Services - Environmental engineering consulting services, Spill Control and Countermeasures (SPCC) Plans, Stormwater Pollution Prevention Plans, Permitting (SWPPP), storage tank management including removals, closures, inspections, testing, replacement and repairs, corrective action plans

Other Professional, Scientific and Technical Services - Professional Engineer in MD, VA, DE, DC, NC, NY, OH, PA, WV. Air quality testing, water and soil quality testing.

Facilities and Equipment

AEEG is located at 8055 Ritchie Highway, Pasadena, Maryland. AEEG has access to facilities used to collect and segregate regulated oil/water mixtures for off-site treatment, recycling and/or disposal including equipment such as vacuum trucks, tank trailers, dump trucks, roll-offs and box trucks. Additionally, AEEG has access to an assortment of earth moving equipment, compressors, generators, power-washers and associated industry related tools and equipment.
